---

## PROFESSIONAL SUMMARY

Senior WordPress Developer and Technical SEO Specialist with **10+ years of overall IT experience**, including **6+ years specializing in WordPress development**. Experienced in architecting, developing, optimizing, and maintaining high-performance **WordPress, WooCommerce, Headless WordPress, and enterprise web platforms** for international clients.

Strong expertise in **custom WordPress theme and plugin development, Gutenberg blocks, ACF Pro, Meta Box, custom post types, REST APIs, GraphQL, WordPress Multisite, WooCommerce, and third-party API integrations**.

Specialized in **Technical SEO, Core Web Vitals, website performance optimization, structured data, crawlability, indexability, and SEO-preserving website migrations**. Proven experience achieving **80+ PageSpeed Insights / GTmetrix scores**, improving website performance by up to **40%**, and preserving SEO structure and metadata during large-scale CMS migrations.

Experienced in working directly with international clients and distributed teams, taking ownership of projects from requirements and architecture through development, deployment, optimization, and production support.

---

---

## PROFESSIONAL EXPERIENCE

### Senior IT Developer — Contract

Rikal Stay | Remote — Riyadh, Saudi Arabia

Dec 2025 – July 2026

*Hospitality & Travel Technology*

- Leading modernization of a legacy platform into a **decoupled React.js frontend with PHP/MySQL backend architecture**.
  - Designed and implemented custom REST API integrations with **Guesty, Airbnb, and internal booking systems**.
  - Developed automated background workflows using **cron jobs and webhooks** for booking operations, payment processing, and notifications.
  - Integrated **Tap Payments** for automated payment workflows and transaction processing.
  - Leveraged **Claude Code and AI-assisted engineering workflows** for code refactoring, debugging, testing, and deployment automation.
  - Implemented Technical and On-Page SEO improvements focused on mobile usability, landing-page performance, organic search visibility, and conversion optimization.
- 

### Lead WordPress Developer

Tutopiya | Remote — Singapore

Jul 2024 – Dec 2025

*EdTech & E-Learning SaaS*

- Architected and maintained a **Headless WordPress platform** using React.js and GraphQL for scalable and high-performance content delivery.
  - Improved overall website performance by approximately **40%** through server-side caching, database query optimization, asset optimization, and Core Web Vitals improvements.
  - Implemented Technical SEO foundations including **dynamic Schema.org markup, canonical URLs, XML sitemaps, and crawl/indexation best practices**.
  - Improved website accessibility and front-end quality using **WCAG 2.1-compliant development practices**.
  - Designed AWS-based deployment infrastructure using **EC2, S3, and CloudFront**, supporting reliable and zero-downtime deployments.
  - Integrated **Twilio OTP authentication** and HubSpot CRM tracking workflows, reducing spam registrations by **95%+**.
-

## Senior WordPress

Techera Business Solutions | On-site — Indore, Madhya Pradesh, India

Apr 2023 – Jul 2024

*Healthcare · Higher Education · FinTech · Insurance · Enterprise*

- Architected enterprise WordPress platforms from the ground up using **OOP PHP, custom plugins, Meta Box, custom post types, taxonomies, and Gutenberg blocks**.
  - Developed custom REST APIs exposing structured WordPress content, CPT data, RSS feeds, and dynamic content for **cross-site content syndication**.
  - Executed large-scale **Drupal-to-WordPress migrations**, preserving custom metadata, media assets, taxonomy structures, URL hierarchies, and SEO-critical content.
  - Designed and implemented **301 redirect mappings** to preserve legacy URL authority and minimize SEO impact during migrations.
  - Conducted Technical and On-Page SEO audits using **Screaming Frog and Google Search Console**, resolving crawl errors, orphan pages, canonical issues, and indexability problems.
  - Optimized database queries, frontend assets, caching, and server configuration to improve **Core Web Vitals and overall website performance**.
  - Consistently achieved **80+ PageSpeed Insights / GTmetrix scores** across enterprise platforms including **The Chicago School, Kansas Health Science Center, Finrails Bank, and Dimond Bros Insurance**.
- 

## Module Lead Software Engineer

Galaxy Weblinks Ltd | Remote — Indore, Madhya Pradesh, India

Mar 2022 – Apr 2023

*SaaS · Custom WordPress Plugins · Enterprise Solutions*

- Developed custom WordPress solutions and reusable components for enterprise client projects.
  - Designed and published open-source WordPress plugins including **WP Force Password** and **WP Exporter Plus**.
  - Developed custom **GraphQL endpoints and CPT filtering mechanisms** for Headless WordPress applications.
  - Converted Figma UI/UX designs into responsive, performance-focused, SEO-friendly, and **WCAG-compliant WordPress themes**.
  - Developed custom functionality using **PHP, WordPress APIs, MySQL, JavaScript, and REST APIs**.
  - Collaborated with distributed teams on architecture, code reviews, debugging, deployment, and production support.
- 

## WordPress Developer

Bitcot Inc | On-site — Indore, Madhya Pradesh, India

Dec 2020 – Feb 2022

*SaaS · LMS · Healthcare/Fitness · eCommerce*

- Developed custom WordPress and WooCommerce solutions using **ACF Pro, custom post relationships, REST APIs, and custom PHP functionality**.

- Built automated vendor import and inventory synchronization tools for eCommerce platforms including **SpiritHero**.
- Developed responsive, mobile-first interfaces using HTML, CSS, JavaScript, and WordPress.
- Implemented **On-Page SEO and technical performance improvements** across client websites.
- Optimized frontend assets, database queries, caching, and WordPress configurations to improve website speed and user experience.
- Worked on client platforms including **Studio Sweat onDemand** and **Espresso Displays**.
